

What's the value of dental benefits?

Having a Delta Dental plan saves you money and makes it easy to get the care you need to protect your smile and keep it healthy.

Save Money

As the nation's leading dental benefits provider, Delta Dental negotiates lower fees with dentists so you pay less for the dental care you need. Most Delta Dental plans cover preventive care at 100%. And with the largest network of dentists in the nation, you will have access to cost-saving dental care no matter where you travel.

Save Time

Our time-saving tools make it easy to find a dentist in your area, estimate the cost of a procedure before you go to the dentist and manage your dental benefits plan online, in the Delta Dental mobile app or over the phone.

Stay Healthy

When families have dental benefits, they are almost twice as likely to get the preventive dental care that they need to stay healthy. With most Delta Dental plans, preventive care, such as exams, cleanings and X-rays, are covered at 100%. Keeping your smile healthy is not just about your appearance—oral health is a critical component of your overall health.

Save money and keep everyone in the family smiling!

You could save thousands on the care your family needs with Delta Dental.¹

Preventive services
often **covered at 100%**²

Pre-negotiated discounts with
more dentists nationwide
than any other company

Dental plan coverage
means **lower out-of-pocket costs**

It's easy to see the savings add up:

To illustrate the value of dental benefits, let's compare the dental care costs for a family of four with and without dental benefits. Over the course of the year, let's say each family member had their twice-annual preventive visit and each person needed a cavity filled.

For a family of four...

No dental benefits¹

Annual premium	\$0
Preventive visits	\$1,400
Fillings	\$800
Cost	\$2,200

With dental benefits²

Annual premium	\$1,200
Preventive visits	\$0 ²
Fillings (out-of-pocket cost)	\$200
Cost	\$1,400
Savings	\$800

Now those are savings worth smiling about! And imagine even more savings should your family need more intensive work, like crowns or root canals.
